## Module 0.1.5.1

### Introduction to Technology

# GitHub, Authentication & SSH Key Creation

## Instructor Tutorial

**What is GitHub?** GitHub is a web-based platform that allows developers to store, track, and collaborate on software projects. It uses Git, an open source version control software, to enable multiple people to make changes to web pages at the same time. GitHub makes it easy for developers to share code files and collaborate on open-source projects.
